

- Affordable with quality components
- Established and well-tested hardware
- Adapted for harsh Nordic climate and light conditions
- Multiple maintenance acces, front and rear

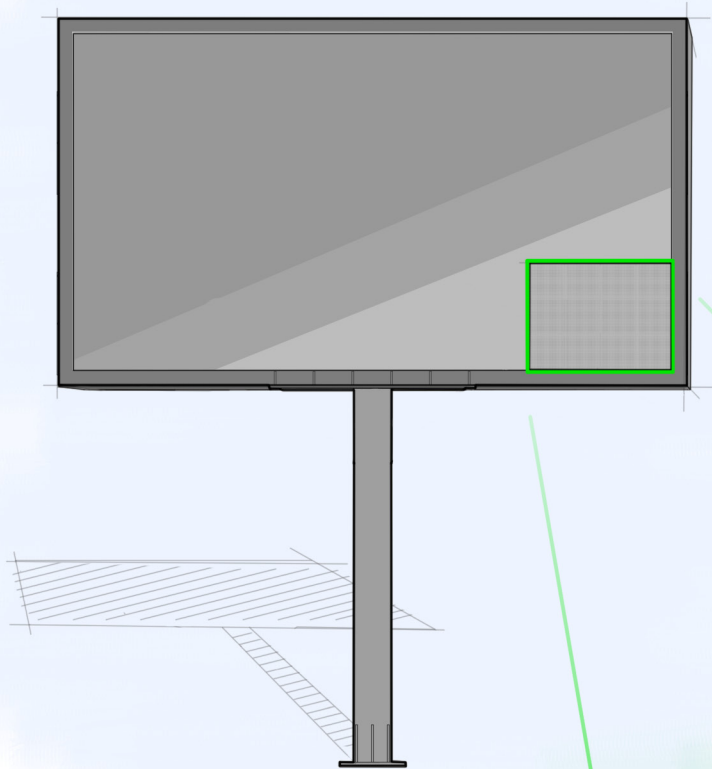

LED-Screen for outdoor use

Microbus Essential may not look to be the most advanced, but stands on well established and thoroughly tested hardware. Each of the included components have been painstakingly selected to fit the Nordic climate and will withstand the large seasonal differences in weather and temperature.

Microbus Essential is a pure workhorse for those who want to combine affordability with high quality.

LED-display

A LED-display come in many different sizes, often a combination of many smaller cabinets

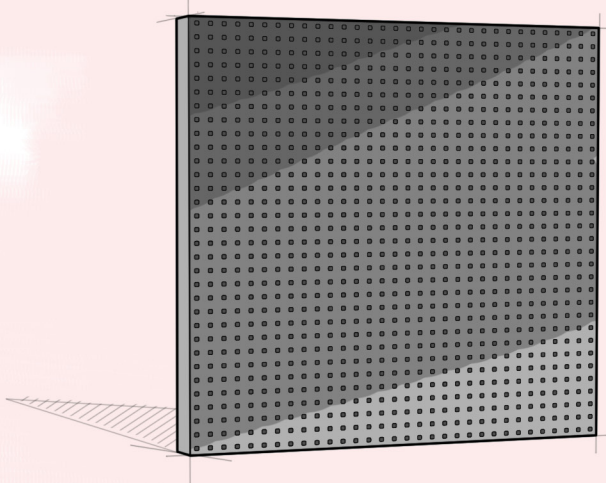

Cabinet

A cabinet, also known as a panel, is in turn a combination of many smaller modules

Module

A module is the smallest Screen section in a LED-display

Cabinet

Technical data

Type	Essential P6 SMD
Article number	65-005-28
Pitch	6 mm
LED-set	SMD2727
Module dimensions (WxH)	240x240 mm
Connectors	Gold plated
EMI-filter	Yes
Soft start	Yes
Case	Galvanized steel or aluminium
Circuit Board	4 layered copper, gold immersed
Protective lacquer	Yes, extra thick
Maintenance Access	Multiple, front and rear
Brightness adjustment	Automatic
Pixel density	27 777 pixels/m ²
Pixel configuration	1R1G1B (SMD 3in1)
Visibility angle	H:140°; V:140°
Grey scale	16 bit
Update frequency	≥ 1,920
Weight	≤60 kg/m ² , ≤45 kg/m ²
Maximal consumption	850 W/m ²

Standard Cabinet Sizes

1200 x 960 mm
200 x 160 pixlar

1200 x 1200 mm
200 x 200 pixlar

960 x 1200 mm
160 x 200 pixlar

960 x 960 mm
160 x 160 pixlar

Module

Technical data

Dimensions Module (WxH)	240x240 mm
Pitch	6 mm
Diod type	SMD2727
Resolution (WxH)	40x40 pixels

Fast Dismantling

Essential P6 SMD has easy access for service maintenance in both front and rear. At the rear there are cabinet doors, opened by key, which allow easy access to modules, power supply, and more. The modules can also be serviced and switched from the front using only a screwdriver.
